

## Editorial

Dear readers.

That's a great pleasure for me to introduce you new issue on International Journal of Entrepreneurial Knowledge, which includes the four interesting research papers. In last months we have indicated the increasing interest for publication in our journal from different countries of the world. We are very pleased that we have succeeded in establishing the high quality journal, which covers the different fields of entrepreneurship, which is one of the most developing fields of scientific research. Our journal tries, from its first issue to contribute to the discussion in this field. In present conditions it is very hard to succeed in competition of thousands different research journals all over the world and get attention of the authors.

Current issue includes nine interesting research studies, which I hope, will contribute to the extension of the knowledge in the field of entrepreneurship. I would especially like to thank to our editorial board members, prof. Zelený and prof. Rubinstein, for their comprehensive articles. We have also decided to include interesting paper which focuses on the comparison in two rugby leagues, which in fact doesn't accurately fit to the journal scope, but brings the untraditional focus on specific sport field.

To conclude, let me state, that we work on increasing quality of the journal, and expect the soon indexing of our journal in SCOPUS database, which could dramatically extend the impact of the journal.
